

Marine Walk events space

The Marine Walk improvement works are part of Sunderland City Council's plan to regenerate the seafront at Roker and Seaburn.

The Marine Walk project includes the creation of events spaces, cliffside lighting, an interpretation trail and the redesign of the Roker Pier gates.

Notation

1. Refurbishment of the historic path including new raised viewing area with feature steps
2. New granite paving in a seaweed pattern with boulders
3. Raised stage/performance area with feature steps
4. New street lighting to illuminate events space and Holey Rock
5. New beach seating with pebble and carved granite designs
